Dental ^{6, 13}												• 5	• 5
Anemia ^{3, 4}													
• Hematocrit (spun)						85013 ⁷	85013 ¹¹						
• Hemoglobin						85018 ⁷	85018 ¹¹						
Venous Lead ^{3, 4}						83655	83655 ¹¹	83655 ¹¹	83655 ¹¹	83655	83655 ¹¹	83655 ¹¹	83655 ¹¹
Tuberculin Test ³													
Sickle Cell													
Sexually Transmitted Infections ⁸													
Dyslipidemia ^{3, 4}													
Immunizations													

If indicated by history and/or symptoms.

Administer immunizations according to the ACIP schedule. For children 18 years and younger, these immunization codes are collected for administration purposes to document antigens given. Because the PA Department of Health provides vaccines free of charge to providers through the Vaccines for Children Program (see MA Bulletins 01-00-10, 10-00-03, 11-00-05, 26-00-04), only a vaccine administration fee will be reimbursed.

If indicated by risk assessment and/or symptoms.

If indicated by risk assessment and/or symptoms.

See Recommendations to prevent and control iron deficiency in the United States. *MMWR*. 1998;47(RR-3):1-36.
Beginning at 12 years of age for females, do once after onset of menses and if indicated by history and/or symptoms.

If indicated by history and/or symptoms.

Administer immunizations according to the ACIP schedule. For children 18 years and younger, these immunization codes are collected for administration purposes to document antigens given. Because the PA Department of Health provides vaccines free of charge to providers through the Vaccines for Children Program (see MA Bulletins 01-00-10, 10-00-03, 11-00-05, 26-00-04), only a vaccine administration fee will be reimbursed.

¹ included in the assessment: a comprehensive history and physical examination; counseling/anticipatory guidance/risk factor reduction interventions; age-appropriate nutritional counseling; the calculation of Body Mass Index (BMI); newborn metabolic/hemoglobin screening and follow-up; growth measurements and head circumference; an oral dental exam; blood lead (BL) risk assessment; blood pressure risk assessment; developmental and autism screenings; development and behavioral assessments; psychosocial/behavioral assessments; alcohol and drug use assessment; and the ordering of appropriate laboratory/diagnostic procedures as recommended by the current AAP guidelines.

² Newborn metabolic and hemoglobinopathy screening should be done according to state law. According to AAP recommendations, Newborn metabolic and hemoglobinopathy screening should take place between newborn and 2 months of age.

³ Use CPT modifier -52 Reduced Services plus CPT code for standard testing method for objective vision/hearing testing, anemia, lead and tuberculin testing not completed.

⁴ Use CPT modifier -90 Reference Outside Lab plus CPT code when laboratory procedures are performed by a party other than the treating or reporting physician.

⁵ ● indicates referral to a dental home, ✕ indicates administer oral health risk assessment. Assess need for fluoride supplementation. Determine whether the patient has a dental home. If the patient does not have a dental home, a referral should be made to one.

⁶ Dental Periodicity Schedule: Per the American Academy of Pediatric Dentistry, the first examination is recommended at the time of the eruption of the first tooth and no later than 12 months of age. Repeat every 6 months or as indicated by the child's risk status/susceptibility to disease. www.aapd.org/media/Policies_Guidelines/G_Periodicity.pdf

⁷ Initial measurement of hemoglobin or hematocrit is recommended between 9 and 12 months of age.

⁸ All sexually active patients should be screened for sexually transmitted infections (STI). All sexually active girls should have screening for cervical dysplasia as part of a pelvic examination beginning within 3 years of onset of sexual activity or age 21 (whichever comes first).

⁹ Procedure code 99460 is to be used for a newborn screen performed in the hospital, but not on the same day as hospital discharge.

¹⁰ Procedure code 99463 is to be used for a newborn screen performed in the hospital on the same day as hospital discharge.

¹¹ Provide at times noted, unless done previously.

¹² Developmental Surveillance is required for all periods, except when developmental screenings are required.

¹³ All referrals to a dental home must be reported using the YD modifier.
