

Today in Westmoreland County, 10% of our community members live in poverty. This means that almost 36,000 people who are our neighbors, co-workers, friends, and family find that they don't have the resources necessary to achieve and maintain self-sufficiency. This lifestyle of disadvantage includes over 9,000 children under the age of 18.

With your help, we can give people hope for a brighter future.

Westmoreland Community Action changes lives and gives hope. Won't you please change lives as well?

Westmoreland Community Action would appreciate you lending your support to our upcoming fundraiser by either being a sponsor or making a monetary donation. Proceeds from this event will supplement our agency's programming efforts.
